l.viii No 45

This MS. originally contained 165 leaves.

Mem. In 1747 the Society of Antiquaries published in the Vetusta Monumenta, vol. i. pl. LXVII. LXVIII twenty fragments selected from the remains of the Cottonian Genesis, Otho B.VI. as left by the fire of 1731.

In 1802 Planta in his Catalogue stated that only 18 fragments of the MS. could be found in 1796, and among them, none of those engraved in the Vetusta Monumenta. By very patient and diligent search, I have succeeded in recovering 147 fragments, and among these are 8 which were engraved by the Society of Antiquaries.

Others of the fragments so engraved were in Dr. Gifford's hands at the time of his death, and were very improperly removed with his books to the Baptist Library at Bristol, where I saw them in 1845.

F Madden

Note – the fragments referred to in the last paragraph of Sir Frederic Madden's note above were deposited in the Museum on indefinite loan in 1928. They were purchased by the Trustees from the Baptist College, Bristol, on 14 April 1962 and thus restored to their rightful home. They are kept in a separate box.
